Subject: Microsoft Settlement

It appears that the competitors of Microsoft (and the states where they are situated) have decided to improve their lot not by being better and having something better to offer the consumer. They've decided to punish Microsoft for having a superior product.

Please be aware that finding in Microsoft's favor, you would be doing a great deal for the consumer - and for the economy - since millions of us are investors in the company, because we believe in it...

Rita and Richard Monley
